

Manor House

Alterations to Manor House

Eton, Berkshire

Alterations, Extensions and Refurbishment of Manor House, part of a complex of listed buildings within the Eton College Campus, involving complex structural alterations, close to areas occupied by pupils and staff.

Work included alterations to the House Masters family accommodation including new purpose made book cases, made in our own joinery workshops. The main staircase was refurbished, with new lighting and panelling, dormitories were modernised and a new purpose built timber conservatory was added. The work was carried out largely by our own directly employed operatives, which gave us the flexibility to work with the college staff to minimise disruption at all stages
